RELEVANT PROFESSIONAL EXPERIENCE

IT Assistant

2017 - 2018

Sharpnet

Accra, Ghana

In my most recent position as an office assistant for Sharpnet, I introduced a new electronic file system that significantly increased office productivity and organization and created a more efficient work flow for all staff members. The daily operations of the company, such as stocking up on supplies and conducting many system tests, were also organized and coordinated in large part by myself. Management and coworkers recognized my great organizational abilities and capacity to successfully handle various projects and priorities for my efforts, which helped to boost the office's general productivity and operations.

- Answering and directing phone calls and managing the company's email and mail correspondence.
- Assisting in the preparation of presentations, reports, and other documents
- Managing and maintaining office supplies and equipment.
- Greeting and directing visitors, clients, and vendors
- Data entry and maintaining the company's databases and filing systems.
- Maintaining a safe and clean office environment.
- Providing support to management and other departments.

Junior Front-End Web Developer

2018 - 2019

Cord Giants

Accra, Ghana

In my most recent role as a Junior Front-end Web Developer for Cord Giants, I led the redesign of the company's website, resulting in a significant increase in website traffic and user engagement. Prior to this, I was instrumental in the development of a new e-commerce platform for the company, which led to a noticeable increase in online sales. I also played a key role in the implementation of new features and functionalities for the company's website, resulting in a positive impact on user experience and satisfaction. My contributions helped to improve the overall performance and user experience of the company's digital platforms, which was acknowledged by management and colleagues for my exceptional coding skills, attention to detail and ability to effectively manage multiple tasks.

- Developed and maintained websites and web applications using HTML, CSS, JavaScript and other front-end technologies.
- Optimized website performance by implementing front-end optimization techniques.
- Developed and implemented new features and functionalities to improve user experience.
- Troubleshoot and debugged front-end issues.
- Participated in code reviews and provided feedback to other developers.
- Worked in agile development environment and followed software development best practices.

Front-End Web Developer (Remote)

2019 - 2020

DigitalNet

Ottawa, Canada

In my role as a remote Front-end Web Developer for DigitalNet, I made a significant impact by supporting the development and implementation of a new, fully responsive website design. Additionally, I wrote codes, solved errors and also implemented various front-end optimization techniques to improve the website's performance, which led to faster page load times and a better user experience. Throughout my tenure with the company, I was recognized for my ability to effectively manage remote development projects, my strong technical skills and my attention to detail. My contributions helped to improve the overall performance and user experience of the company's digital platforms.

- Developed and maintained websites and web applications using HTML, CSS, JavaScript and other front-end technologies.
- Collaborated with remote design and development teams to create visually appealing and user-friendly designs.
- Implemented responsive design to ensure optimal viewing experience on various devices.
- Optimized website performance by implementing front-end optimization techniques.
- Created and implemented new features and functionalities to improve user experience.
- Troubleshoot and debugged front-end issues.
- Worked with back-end developers to ensure seamless integration of front-end and back-end functionality.
- Stayed up-to-date with the latest front-end development technologies and trends.
- Participated in remote code reviews and provided feedback to other developers.
- Managed multiple remote development projects and timelines.

- Communicated effectively with remote team members, stakeholders and clients through various tools and platforms
- Monitored and reported project progress, timelines and deliverables to the clients and stakeholders in a remote environment
- Collaborated with remote team members to ensure the project meets the client's requirement and expectations

Full stack Developer (Freelance)

2019 - Present

Upwork & Fiverr

As a freelance full-stack developer on Upwork and Fiverr, I made a significant impact by leading the development and implementation of a variety of projects for different clients. I successfully delivered a real-time chat application for one of my clients, which resulted in the client getting more clients, I also developed a complex e-commerce platform for a client, which resulted in increased revenue, and improved customer satisfaction. In another project, I created a custom API for a client, which resulted in more efficient workflow for the client. I have been acknowledged by my clients for my ability to effectively understand their needs, and deliver high-quality, reliable and efficient solutions. My contributions helped to improve the overall performance and user experience of my clients' platforms, which was acknowledged by my clients for my exceptional technical skills, attention to detail, problem-solving abilities and ability to effectively manage multiple projects and timelines.

- Developed and maintained websites and web applications using various programming languages and frameworks such as HTML, CSS, JavaScript, PHP, and React.
- Collaborated with clients to understand their requirements and create custom solutions to meet their needs.
- Developed and implemented new features and functionalities to improve user experience.
- Optimized website performance by implementing front-end and back-end optimization techniques.
- Troubleshoot and debugged front-end and back-end issues.
- Worked with databases such as MySQL and Laravel to manage data and ensure data integrity.
- Stayed up-to-date with the latest web development technologies and trends.
- Managed multiple projects and timelines to meet client deadlines.
- Communicated effectively with clients to keep them informed of project progress and to gather feedback.
- Worked independently and as part of a team to deliver high-quality software solutions.
- Managed and tracked project budgets and timelines.
- Created and delivered training materials and documentation to clients.
- Provided ongoing technical support and maintenance for clients.
